SAN JACINTO WRECKERS

**SALES & INSTALLATION**
Houston, Texas

# LIL HERCULES 2.0

## Keep the pickup. Add the capability.

A Detroit Wrecker self-loading wheel lift mounted beneath your pickup bed.

**5,000 lb**
**LIFT RATING**

**10,000 lb**
**TOW RATING**

| | |
|---|---|
| Mounting | **Below the pickup bed** |
| Wheel grid | **Self-loading T-bar with hydraulic L-arms** |
| Hydraulic power | **Double-motor electric pump** |
| Power-system location | **Toolbox in the pickup bed** |

Equipment ratings are not truck-specific towing approval. Truck, axle, tire and attachment limits still apply. Optional equipment is shown in some photos.

SAN JACINTO WRECKERS

**SALES & INSTALLATION**
Houston, Texas

# YOUR TRUCK. YOUR SETUP.

## START WITH THE RIGHT TRUCK

**10,000-lb minimum GVWR**

**Leaf-spring rear suspension**

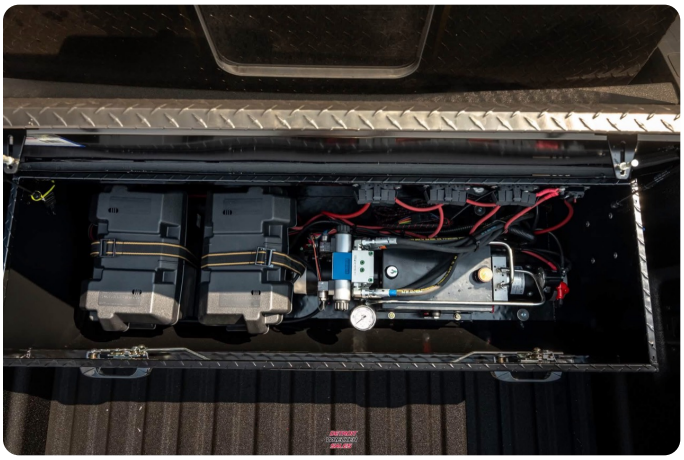

These are starting requirements, not fit approval. We review your truck's certification label, axle and tire ratings, available payload and clearances.

## MORE THAN BOLTING ON A LIFT

**01 / Prepare & reinforce**
Frame access, fitting and fabrication using Detroit-supplied reinforcement steel and supported pre-cut kits.

**02 / Mount & support**
Lift mounting, custom rear helper springs, relocated helper pads and Fox rear shocks with reservoirs.

Reinforcement does not increase the truck manufacturer's ratings.

## PLAN FOR TOOLBOX SPACE

The pump, two batteries and Bluetooth battery monitor are housed in the pickup bed. The lift mounts below it.

### Clearance matters

The underbody spare may need another storage location. Fuel or DEF tanks may need changes. Tell us about your receiver, gooseneck or fifth-wheel hitch so we can review compatibility.

## OPTIONAL ATTACHMENTS

### Motorcycle carrier

**$1,500 estimate**

Dedicated motorcycle-carrying attachment.

### Frame fork kit

**$4,800 estimate**

Fork holders and three sets of forks.

## $35,000 base installed estimate

$25,000 unit + $10,000 installation package.
Optional accessories are extra. Final quote after truck review.
